

Lighthouse Retreats

Conscious Remote Team Building
for Small Teams & Startups

Let's Make Remote, **Work.**

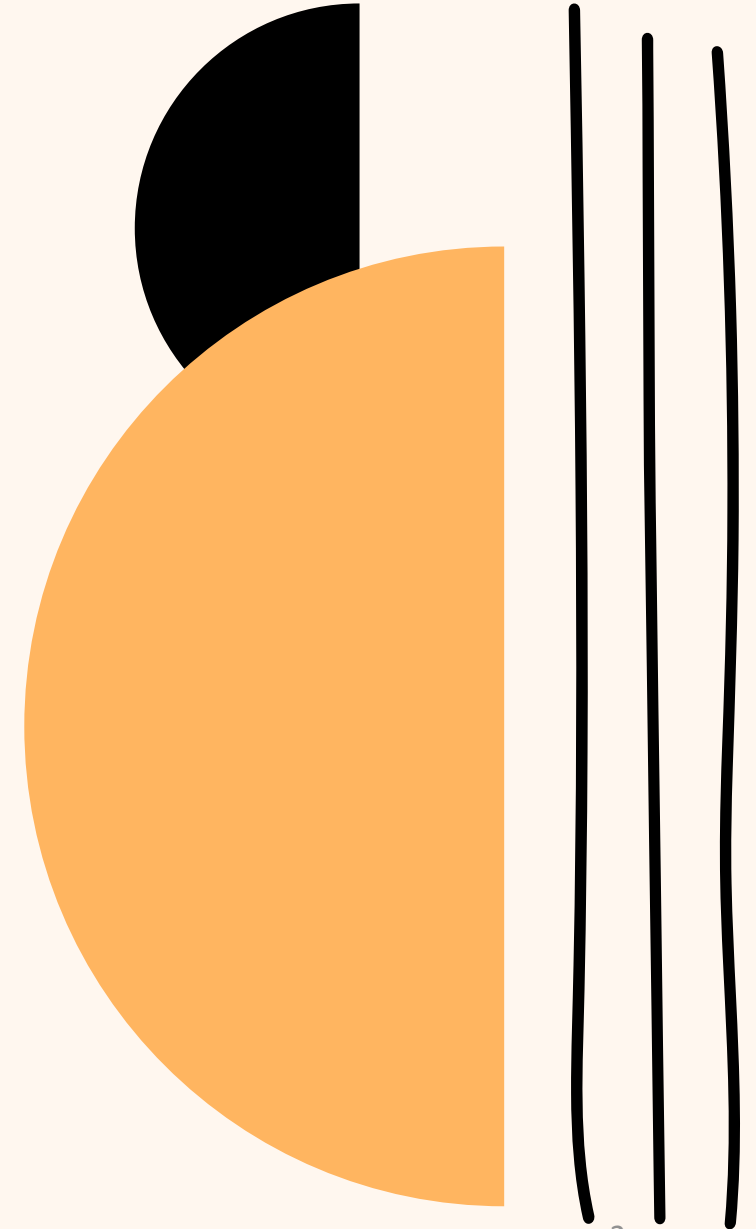

Startups & small teams are positioned to benefit from remote work
But distributed teams are **not risk-free**. Take a close look at -

team cohesion 

interpersonal relationships 

communication and connectedness 

Intention + action make remote teams a *competitive advantage*,
before they become a *liability*.

Keep Work Context, Drop the Work Environment

A retreat is an opportunity to grow and align under new conditions -

learn new skills

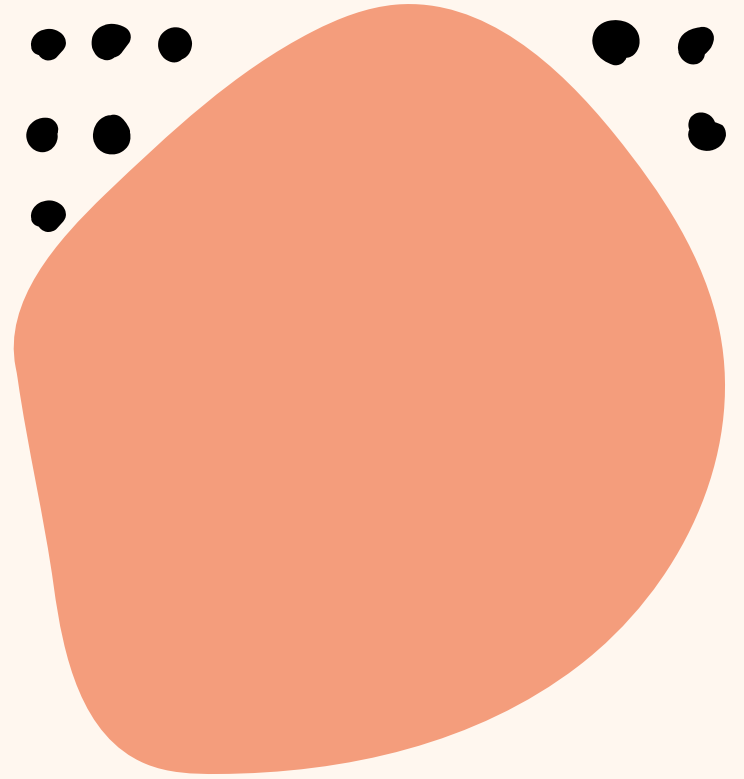

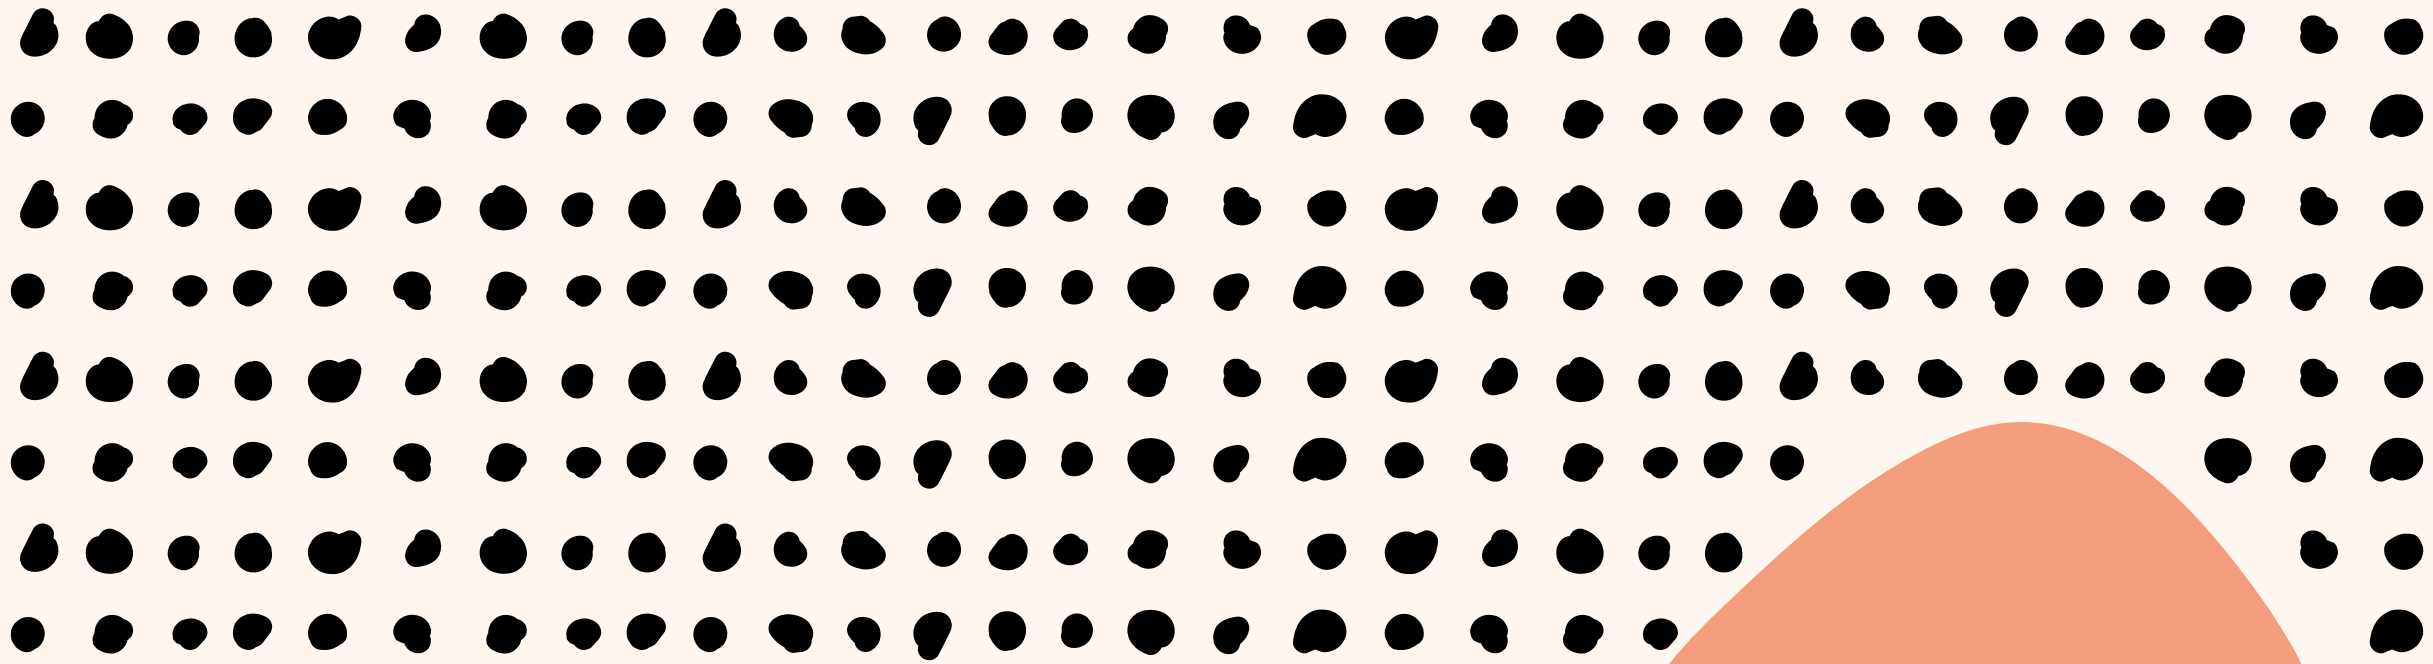

do inner work

bond as a team

They're rarely meaningful as strategy sessions or work-vacations; plus, they're a heavy lift to plan and manage.

How do we preserve meaning and maximize the opportunity without letting them become another day in the office? 🤔

We Built The Retreat to Build WFH Teams

The Retreat reflects a *work from home* ethos
